Crombie

Cautionary Statements

Forward-looking Information

This presentation contains forward-looking statements that reflect the current expectations of management of Crombie about Crombie's future results, performance, achievements, prospects and opportunities. Wherever possible, words such as "continue", "may", "will", "estimate", "anticipate", "believe", "expect", "intend" and similar expressions have been used to identify these forward-looking statements. These statements, including statements regarding the target yield on cost, estimated cost to complete, estimated yield on cost of developments, and anticipated acquisition closing, reflect current beliefs and are based on future management and development fee revenue information currently available to management of Crombie. Forward-looking statements necessarily involve known and unknown risks and uncertainties, including real estate market cycles, general economic conditions, the availability and cost of labour and building materials, uncertainties in obtaining required municipal zoning and development approvals, concluding successful agreements with existing tenants, including agreements for rental increases due to modernization activity, and, where applicable, successful delivery of development activities undertaken by parties not under the direct control of Crombie, unforeseen changes to the operating costs associated with Crombie's properties, infrastructure and technology limitations, and other factors not under the direct control of Crombie.

A number of additional factors, including the risks discussed in our Annual Information Form, could cause actual results, performance, achievements, prospects or opportunities to differ materially from Crombie's Management's Discussion and Analysis for the three months ended September 30, 2026 ("Q3'26 MD&A") results discussed or implied in the forward-looking statements. These factors should be considered carefully, and a reader should not place undue reliance on the forward-looking statements. There can be no assurance that the expectations of management of Crombie will prove to be correct. Readers are cautioned that such forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from these statements. Crombie can give no assurance that actual results will be consistent with these forward-looking statements.

Non-GAAP Measures

Certain terms used in this presentation, such as AFFO, FFO, Commercial same-asset property cash NOI, debt to trailing 12 months adjusted EBITDA, fair value of unencumbered assets, debt to gross fair value and interest coverage ratio are not measures defined under Generally Accepted Accounting Principles ("GAAP") and do not have standardized meanings prescribed by GAAP. AFFO, FFO, Commercial same-asset property cash NOI, debt to trailing 12 months adjusted EBITDA, fair value of unencumbered assets, debt to gross fair value, and interest coverage ratio should not be construed as an alternative to net earnings or cash flow from operating activities as determined by GAAP. AFFO, FFO, Commercial same-asset property cash NOI, debt to trailing 12 months adjusted EBITDA, fair value of unencumbered assets, debt to gross fair value , and interest coverage ratio as presented, may not be comparable to similar measures presented by other issuers. Crombie believes that AFFO, FFO, Commercial same-asset property cash NOI, debt to trailing 12 months adjusted EBITDA, fair value of unencumbered assets, debt to gross fair value and interest coverage ratio are useful in the assessment of its operating performance and that these measures are also useful for valuation purposes and are relevant and meaningful measures of its ability to earn and distribute cash to Unitholders. See the section titled "Non-GAAP Financial Measures" in our Q3'26 MD&A and the reconciliations referenced in that section, all of which are incorporated into this presentation by this reference, for a discussion of these non-GAAP measures. A copy of the Q3'26 MD&A is available under Crombie's profile on SEDAR+ at www.sedarplus.ca.

Four Key Levers for Flexibility in Both Non-Major and Major Developments

NON-MAJOR
Projects less than $50M

MODERNIZE

Topsail Road Plaza, NL

- Capital investments in existing grocery-anchored properties
- Enhance asset quality and functionality
- Invested $6.0 million[1] in modernization program
- Target yield on cost for non-major development is 6%-8%[2]

INTENSIFY

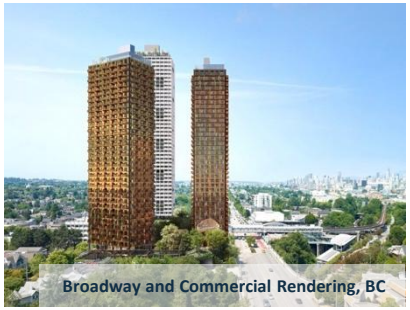

Spryfield, NS

- Adding GLA and/or repurposing existing space
- Income-producing space added on sites we already own
- Densification will increase traffic, complementing the centre

MAJOR
Projects greater than $50M

ENTITLE

Broadway and Commercial Rendering, BC

- Advancing key sites through zoning and municipal approval
- Capital efficient avenue to unlock embedded value
- Preserves flexibility and optionality
- We maintain flexibility across our major development pipeline, with no construction commitments

DEVELOP

The Marlstone, NS

- Large-scale, transformative projects
- Drives long-term portfolio growth
- The Marlstone (Halifax, Nova Scotia), a 291-unit residential rental project partnered with Montez Corporation; 40.2% of units committed

1. For the three months ended September 30, 2026
2. Based on committed rent increases, location and estimated costs to complete. See the development section of Crombie's Q3'26 MD&A for information on assumptions and risks.
